# **MARTIN ALLSBROOK**

Game Designer and Developer

martin.allsbrook@colorado.edu https://martinallsbrook.com/ +1 (323) 204-6868

## **EDUCATION**

August 2019 - May 2023

University of Colorado at Boulder ATLAS Institute

May 2018 - August 2018

University of California, Los Angeles

#### Bachelor of Science in Creative Technology and Design

Worked on many projects that encouraged the application of both technical and creative skills. Was invited to present two projects at the 2023 ATLAS Expo. Gained experience with programming, modeling, Arduino, game design, and UX design. Good problem solving and technical writing background from applied calculus and physics classes. Member of the CU Snowboarding Team.

#### **Physics Summer Class**

Pursued my interest in physics and received a more advanced Physics education not offered in highschool.

## **EXPERIENCE**

May 2023 - Current

Hudson, New York

May 2022 - August 2022

Los Angeles, California

June 2021 - August 2021

Los Angeles, California

May 2019 - July 2019

Los Angeles, California

Summer 2016 & 2017

Los Angeles, California

## **HONORS**

May 2023

Boulder, Colorado

January 2022

Boulder, Colorado

### Laazy Studio, Web Interaction Designer

Helping deliver on client and studio visions by integrating novel and complex web interactions into sites designed at Laazy Studio. Solving unforeseen problems during development.

#### Kilograph, Web and Graphic Design Intern

Designed and developed the webportal for a land development proposal that ended up winning the client a contract. Organized and led the brainstorming sessions and design discussions with my team. Worked on multi platform cohesive branding.

#### Standard Architecture, Graphic Design & Modeling Intern

Designed and constructed successful design pitches and award submissions. Got company designs approved by modeling view studies and showing our plans fit within the code. Organized clients' inspiration and feedback into cohesive moodboards and actionable ideas.

#### Standard Architecture, Archive Management & Web Design

Updated the company website with new projects. Touched up and color corrected project photos in photoshop. Managed office supply stock.

#### The Art Grist, Camp Counselor

Made sure projects were on track to be completed by working with campers and making plans when problems arose. Helped organize campers during daily activities.

#### Invited to Present Two Projects at the ATLAS 2023 Expo

Was invited to my projects Xenoplanet, and The Guillotine, at the 2023 ATLAS Expo. Xenoplanet is an atmospheric 3D adventure game featuring stealth based combat dynamics, and an infinite procedural world, generated in real time. The Guillotine is a strength and timing based arcade game that utilizes an Arduino microcontroller to create an alternative interface for control.

#### **GLEE 2023 Graphics**

Designed the winning entry in a competition to create a new logo for the GLEE lunar mission, sponsored by NASA's Artemis Student Challenges and the Colorado Space Grant Consortium.

# **SKILLS**

Design	Development	Modeling	Graphics	Misc
Game Design	Unity C#	Fusion 360	HTML & CSS	German
Graphic Design	Arduino C++	Cura	InDesign	Premiere Pro
UX/UI Design	JavaScript	3D Printing	Illustrator	After Effects
	JetBrains Rider	Rhinoceros	Figma	Ableton
	Visual Studio	Blender	Photoshop	Audacity
